Partnership

Origin Green Member companies are:

- working collaboratively with other organisations and stakeholders with the common goal of sustainable food production

★ ENVIRONMENT

Reduce the weight of General Residual Waste we generate on Oceanpath site by 58% (waste/unit of output). Increase waste to recycling/recovery as a % total waste to 95% for Oceanpath & 50% for Dunn's.

Continue diverting 100% food waste to animal feed. Reduction in energy and lighting improvement. Installation of alarm set in refrigeration areas.

Reduction on water usage per kg of output.

★ RAW MATERIAL SOURCING

Commitment to source minimum 55% of Oceanpath raw material fish intake with product level certification (Global Gap). Overall reduction in packaging arising from product placed on market by 70%.

Reduce the footprint of packaging.

★ SOCIAL SUSTAINABILITY

Target 12 employee wellbeing days per annum.

Local schools and clubs are sponsored and donations are made to various charities.

Nutritional claims are maintained. Palm oil removed from all marinades.
